# TEHNOLOGIJA

## TECHNOLOGY

## **HIDROFORMED TUBING**

Hydroforming uses special molds and fluid pressure to form metal tubes into predetermined shapes. To do this, a hollow tube is placed into a negative mold of the desired result. Then, high pressure hydraulic fluid is pumped into the aluminum tube, causing it to expand until the tube conforms to the shape of the mold.

**KRYPTON X**<sup>®</sup>  
GENUINE BIKE ACCESSORIES

Krypton X offers an attractive assortment of basic essentials including bike parts and accessories, high in quality, longevity and function. With great looks and great prices to match, they appeal to the sportive biker as well as the city biker.
